3. HAZARD IDENTIFICATION (Continued)

INGESTION:

This product has a low order of acute oral and dermal toxicity, however minute amounts aspirated into the lungs during ingestion or vomiting may cause mild to severe pulmonary injury and possibly death.

OTHER:

Acute oral LD50 (Rat) greater than 5 g/kg of body weight.

Acute dermal LD50 (Rabbit) > 3.16 g/kg of body weight.

Hazardous Material Identification System (HMIS):

Health-1, Flammability-1, Reactivity-0 (Based on components)

4. FIRST AID MEASURES

INHALATION:

Normal use should not result in exposure. If overcome by vapor from hot product, immediately remove from exposure and call a physician. Administer oxygen or resuscitation if breathing is irregular or has stopped.

EYE CONTACT:

Flush eyes with large amounts of water immediately for 15 minutes or until irritation subsides. If irritation persists, get medical attention.

SKIN CONTACT:

Wash affected areas thoroughly with soap and water. Remove contaminated clothing and wash them before wearing again. Call a physician if irritation persists. High pressure injection of this product into or under the skin should be evaluated by a physician as a surgical emergency. Treatment within the first few hours may significantly reduce the ultimate extent of the injury.

INGESTION:

Call a doctor immediately. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

GENERAL HAZARD:

May release vapors that form flammable mixtures when temperatures are at or above the flash point. Toxic gases will form upon combustion.

5. FIRE FIGHTING MEASURES (Continued)

FIRE FIGHTING INSTRUCTIONS:

Either allow fire to burn out under controlled conditions or extinguish with foam, CO₂, or dry chemical. Try to cover liquid spills with foam. Shut off fuel to fire if possible to do so without hazard.

FIRE FIGHTING EQUIPMENT:

NIOSH approved self-contained breathing apparatus and eye protection are required for fire fighting personnel on all indoor fires and any significant outdoor fires.

HAZARDOUS COMBUSTION PRODUCTS:
